

## Privacy Policy

### Who we are

DateCoin is operated by DateCoin Ltd., a company registered in New Horizon Building, Ground Floor, 3 1/2 Miles Philip S.W. Goldson Highway, Belize City, Belize, Registration Number: 168633.

DateCoin has assigned Data Protection Officer that can be reached by email: support@datecoin.io .

The purpose of this Privacy Policy ("Policy") is to ensure compliance with the highest standards of Users data security, including but not limited to personal data, from unauthorized access by third parties.

The latest version of Policy is published online and available at [https://datecoin.io/privacy\\_policy.pdf](https://datecoin.io/privacy_policy.pdf). Administration reserves the right at any time to modify, alter or update the Policy without any User notification. The updated version of the Policy is effective immediately after approval by DateCoin. The User is considered to be notified about the Policy update immediately after its online publication at DateCoin website.

By signing up the DateCoin website, the User certifies (provides the written consent) that he/she has read, understood and accepted the Policy.

If the User disagrees with Policy modification and DateCoin terms of use, he/she must stop using the website services immediately.

### Data processed

DateCoin is a project which is developing new service for matchmaking. By joining DateCoin, the Users enter an agreement with us and we process their data in order to provide services under the terms of that agreement. The User can only register at DateCoin if he/she is of the legal age or over according to local laws.

To join DateCoin ecosystem the User required to fill out sign up form, where he/she confirms that he/she not a US citizen and we ask to provide registration e-mail address. The User is required to specify he/she name, registration address details, ETH address, and all the necessary documents for KYC.

By entering any sensitive personal data, the User gives a written consent on its processing by DateCoin and access by other Users.

The Finance and payment information is processed by the third parties.

In order to keep updated with the latest promotions and offers, the User agrees (gives his/her written consent) on using his/her email for informational purposes at sign up. The consent can be withdrawn at any time in account settings.

### User data disclosure

All the collected users data is not public, all data is encrypted and safely stored by DateCoin. By posting personal data in his/her profile, the User confirms that he/she fully understands, accepts and is aware of any risks that may arise from other Users access to this data.

### **Data retention period**

All data is stored until they are relevant and deleted after 3 years after they lose relevance. All the correspondence with technical support is stored for longer time (up to 6 years) and is primarily used for quick and easy resolving of any possible disputes.

Anonymised information about activity in DateCoin is stored for statistical and product research purposes, but is removed immediately once the profile has been deleted.

### **Data collected about under legal age Users**

DateCoin does not knowingly collect any information about or market to children, minors or anyone under legal age. If we become aware that a child, minor or anyone under the legal age has signed up our website and provided us with personal data, we will immediately take action to terminate that person's account and delete their Profile information. Any User attempted to or succeeded in Policy and/or User Agreement violation with respect to persons under legal age will be blacklisted. The Administration reserves the right take legal actions to investigate those violations in accordance with Policy, User Agreement and applicable local laws.

### **Sharing data with third parties**

We share Users data with the following third-parties:

cyber security companies (including but not limited to fraud and spam prevention) responsible for service protection from unlawful activities;  
moderators to monitor activity on the site users support;  
advertising partners, market places and providers of targeted advertising;  
government agencies upon request to ensure regulatory compliance with applicable local laws;  
payment processing and telecommunications companies to facilitate payments for our premium services.

DateCoin is committed to ensure the highest standards of personal data privacy and security. While monitoring the activities of third parties in accordance with applicable local laws, we only share limited liability. However, in case of any violations of Policy, User Agreement and/or applicable local laws by any authorized third parties, DateCoin terminates all business contacts with those immediately.

### **User rights**

Under UK and EU law, the User the right to file a complaint with data protection regulators. DateCoin has its headquarters in Russia and the Information Commissioner's Office (ICO) is our lead regulator. For more details on filing data privacy violations complaints, please contact us [support@datecoin.io](mailto:support@datecoin.io) and visit ICO website (<https://ico.org.uk/>). If the User is

within the EU, he/she can also contact local Data Protection Regulator to act on his/her behalf.

### **Personal data protection**

DateCoin is committed to ensure the highest standards of personal data privacy and security, including personal data leaks and losses prevention. While we take reasonable precautions against possible security breaches of our website, Users database and records, no website or internet transmission is completely secure and we cannot guarantee that unauthorized access, hacking, data loss, or other breaches will never occur. We highly recommend our Users to take all possible actions to ensure personal data safety (including password) and to log out of their account after each session. If the User loses his/her password or by any other means disclose it to any third parties, or in case other services providers experience data breach and the User have used the same credentials with that service provider as he/she have with DateCoin, his/her personal data may be compromised. If that happens, please contact our technical support immediately [support@datecoin.io](mailto:support@datecoin.io).

### **Personal data storage location**

We are committed to provide our Users with DateCoin access worldwide. We operate a global network of servers, but our main server is located in Germany. The hardware is located in third-party data centres leased by DateCoin. Data collected by advertising partners may also be held outside the European Economic Area. We ensure that the data is adequately protected and all the actions we take are in a strict regulatory compliance valid legal mechanisms and robust contractual standards.

### **Other personal data collection**

If the User contacts our technical support, we will receive his/her email address, and may track his/her IP address, as well as any information the User sends to us to help resolving his/her issue. We will keep records of our communications with the User, including any complaints that we receive from him/her about other Users (and from other Users about him/her) for 6 years after deletion of the User account.

### **Personal data usage**

We use Users personal data to resolve disputes, troubleshoot problems and enforce User Agreement and Policy.

### **Cookies usage**

We collect information by placing cookies on the Users computers or mobile devices. Cookie is a piece of text stored on the Users computers or mobile devices by the web browser. It is basically a tool that stores information about log history, recognizes the User and his/her preferences at account login, ensures site functionality and enables us to provide the services our Users request.

When the User browses publicly available (open access) sections of DateCoin website and/or app, a session ID cookie is placed on his/her computer that only lasts while the User is logged in. We also place persistent cookies (also known as local storage devices) on Users computers, so that DateCoin remembers them and makes their login experience faster and easier. We may use persistent tracking cookies on Users mobile devices, mainly for security purposes, including but not limited to phishing, scamming and other

unauthorized access attempts prevention, and to help the User accessing his/her hacked account. We do not use any information when the User is logged out.

The User can set the browser and his/her mobile device to block cookies and local storage devices. However, by doing that, the User may not be able to access all the features offered by DateCoin.

DateCoin's use of cookies and local storage devices basically falls into the following categories:

cookies related to the performance of DateCoin site, such as analytics and ensuring smooth and trouble-free experience for our Users;

cookies related to the functionality of DateCoin site, such as remembering User preferences at login or his/her preferred language; and

cookies used for target advertising and its adjustments to increase relevance, to improve reporting on any advertising campaign and to avoid showing ads, the User has already seen.

In some cases, the site feature the User chooses may allow third parties to place cookies or local storage devices on his/her computer. The third parties that place cookies on the User device are solely responsible for data processing and privacy, and DateCoin strongly recommends the Users read their privacy policies.

We use cookies and other devices to ensure DateCoin Users privacy and security. These cookies are used to protect DateCoin Users from spam and fraud and ensure personal data safety, when purchasing services and/or services in our website.

We may use persistent cookies for mobile device identification and matching with existing DateCoin account. These types of cookies are also used to prevent spam, phishing, scamming, unauthorized account login attempts and other unlawful activities and accessing any hacked accounts.

This Privacy Policy was last updated on May 20, 2018.
